TEXTURE PRODUCTS

A. FITZGERALD'S MIRACLE TEXTURE "A"
PART# MDTA 4 oz & 32oz.

MDTA is sprayed over the repair area (the heavier the coating, the heavier the grain pattern), followed by a coat of MDTB. Within a few seconds, the texture will start to form. If more texture is needed, spray a second coat of MDTB over the repair area.

B. FITZGERALD'S MIRACLE TEXTURE "B"
PART# MDTA 4oz & 32oz

MDTA is sprayed over the repair area (the heavier the coating, the heavier the grain pattern), followed by a coat of MDTB. Within a few seconds, the texture will start to form. If more texture is needed, spray a second coat of MDTB over the repair area.

C. FITZGERALD'S CREATA-TEX
PART# CT-A 12oz

Use on Bumpers, Dashboards & Other Plastic Parts

Designed to be used for retexturing repaired areas on padded dashboards, instruments panels, consoles, vinyl roof and bumper covers, etc. Sprays out black.

D. E. FITZGERALD'S FLEX-TEX
PART# 2323 6oz & 32oz

Flex-Tex is a unique blend of flexible materials designed to be used for re-texturing repaired area on padded dashes, instrument panels, consoles, vinyl roofs, rubber bumper covers, etc.

F. SEM HEAVY TEXTURE CHIP GUARD
PART# 39793 20oz

An aerosol coating designed to protect the vulnerable lower panels of the automobile from chipping and corrosion.

G. SEM TEXTURE COATING
PART# 39853 20oz

A unique blend of flexible materials formulated to reproduce a black textured finish on automotive bumpers, dashes, fiberglass tops and plastic parts.

H. SEM CHIP GUARD
PART# 39803 20oz

Protects vulnerable lower panels from chipping and corrosion. Spray patterns may be varied to match factory textures.
